I had the honour to receive your letter of the 25<sup>th</sup> Instant, in which you say you are directed by the President to desire I will inform you if it is my wish to follow up the locations in Saltfleet and Rimbrock in favour of Ann Hanson, or whether they may be thrown open, if depended upon me, I would say yes, but the heirs may call me to an account for doing so, particularly one, General Campbell, I would therefore wish not to have any thing to do in the business.
